

University of Calcutta

University College of Science and Technology

Dated September 17, 2014

A walk-in interview will be held on September 24, 2014 from 11:00 a.m. at the Chamber of the Head of the Department of Chemistry, University College of Science and Technology, University of Calcutta, Kolkata- 700 009, India for the recruitment of one (01) Research Associate under a DST sponsored project, entitled "*Synthesis, crystal structure, magnetic properties and electrochemical behavior of polynuclear complexes of 1st transition metals derived from N, O donor Schiff base ligands*" under Prof. Ashutosh Ghosh.

A Ph. D. Degree in Chemical Sciences is the required qualification for the post. The candidate must have experiences in the fields of synthesis, single crystal structural analysis and magnetic studies of the coordination complexes.

Interested and eligible candidates are requested to bring the up-dated Bio-data and all the original documents (with photocopies duly attested) along with them for this purpose at 11:00 am on the date of the interview. This position is initially for one year and could be further extended for one more year as per norms.
