Department of Polymer Science & Technology

Advertisement for Appointment of **one SRF**

Applications are invited for the post of **one SRF** in the CSIR supported three-year Research Project entitled "Pervaporative Desulfurization of Gasoline by using novel polymer membranes (sanction no. (22/0746/17/EMR-II)" under Prof. Samit Kumar Ray (Principal Investigator), Department of Polymer Science & Technology

As per CSIR, the candidate should have uniformly good academic record with M.Tech. in Polymer science and Technology/Chemical engineering/Chemical Technology

or

M.Sc. in chemistry with specialization in Physical/Organic chemistry/B.Tech. in Polymer Science & Technology/Chemical Engineering/Chemical Technology with at least two years post MSc/B.Tech. research experiences as evident from published papers in standard refereed journals. The fellowship amount is Rs.16000/p.m.+ HRA/MA as per CSIR-EMR.

The candidates should submit two copies of applications with full bio-data to the undersigned by hand/post or email (with attachment of their CVs).

Last date of receipt of application is **18/4/2018**
