ON CERTAIN CLASSES OF HYPERSEMIIRINGS

UTPAL DASGUPTA

THESIS
SUBMITTED TO THE UNIVERSITY OF CALCUTTA
FOR THE DEGREE OF DOCTOR OF PHILOSOPHY (SCIENCE)
IN PURE MATHEMATICS

2012
CONTENTS

List of Symbols viii

Introduction 1

1 Multiplicative Hypersemiring and Fundamental Relation 10
  1.1 Multiplicative Hypersemiring 11
  1.2 Regular and Strongly Regular Equivalence Relations on Multiplicative
      Hypersemirings 16
  1.3 Fundamental Relation on Multiplicative Hypersemirings 21

2 Hyperideals in Multiplicative Hypersemirings 27
  2.1 Subhypersemirings of Multiplicative Hypersemirings 27
  2.2 Some properties of Hyperideals 30
  2.3 Prime Hyperideals of Multiplicative Hypersemirings 36
  2.4 Semiprime Hyperideals of Multiplicative Hypersemirings 40
  2.5 Fully Idempotent Multiplicative Hypersemirings 47

3 Strongly Distributive Multiplicative Hypersemiring $S$ and
   Semiring $P_0(S)$ 52
   3.1 Semiring $P_0(S)$ 52
   3.2 Prime Hyperideals of $S$ and Prime Ideals of $P_0(S)$ 59

4 Some aspects of $p$-Ideals in Semirings 63
   4.1 $p$-Prime and $p$-Semiprime Ideals 65
   4.2 $p$-Prime Radical of an Ideal 71
   4.3 $p$-Radical of a Semiring 78
# Contents

5 $G_H^*$-Rings

5.1 Basic properties of $G_H^*$-Ring ............................ 81
5.2 Hyperideals in $G_H^*$-Rings .................................. 89
5.3 $G_H^*$-Rings over a Ring ..................................... 96

6 Multiplicative Hyperring

6.1 Prime Hyperideals in Multiplicative Hyperrings .............. 104
6.2 Prime Hyperideals and C-Hyperideals in $\mathbb{Z}_A$ ............ 108
6.3 Prime Radicals of Hyperideals ................................. 115
6.4 C-Primary Decompositions in C-Noetherian Multiplicative Hyperrings 119
6.5 Hypermodules over Multiplicative Hyperrings .................. 126
6.6 Uniqueness of a C-Primary Decomposition ..................... 131

7 Hyperrelations and Generalized Hypergraphs .......................... 136

7.1 Some relevant notions ........................................... 137
7.2 Generalized Hypergraph ......................................... 138
7.3 Connected Components of a $g$-Hypergraph ..................... 146
7.4 Inner and Outer Hypergraphs of a $g$-Hypergraph .............. 151
7.5 Balanced $g$-Hypergraph ........................................ 155
7.6 Decomposition and Reducibility of a $g$-Hypergraph .......... 159
7.7 $g$-Hypergraph of a Group ..................................... 164

Bibliography ............................................................. 168
