INAUGURATION OF IPR CELL

THE TIMES OF INDIA
Intellectual property rights cell opens at CU

Kolkata: Calcutta University on Friday inaugurated an Intellectual Property Rights cell at Centenary Building on the College Street campus.

The cell will help research scholars, faculty members and students navigate through the intricate domain of patent and copyright protection. "The IPR cell, which was established under the supervision of our vice-chancellor, will not only encourage the creativity of our scholars, faculty members and students but also protect their assets. It will spread awareness on intellectual property rights and help file patents in a systematic manner," said registrar Debasis Das.

IPR cell co-ordinator Sabuj Kumar Chaudhuri said, "This is a red-letter day for the university. From now, ideas and inventions of all the university stakeholders will be secure. The IPR cell will help file for patents, the application process for which was difficult. We are preparing general IP policy for everything, general IP policy for patents and dedicated IP policy for copyright."
