

**M. Sc. (Microbiology) Semester I , 2021 [11.00 am to 1.00 PM and 2 PM to 4 PM]**

**February 21, 2022:** Micro C11: Biomolecular structures and their interactions & Micro C14: Biophysical Methods & Instrumentation

**February 23, 2022:** C12: Microbial Cell Biology & Micro S11: Enzymes & Reaction Kinetics Micro

**February 25, 2022:** Micro C13: Molecular Biology & Micro C15: Microbial Metabolism

**Instructions**

Both theoretical and practical examinations will be conducted through online mode.

The question paper will be sent directly to the students 15 minutes before the scheduled start time of each examination for downloading the question paper and an extra 30 mins will be given after the examination for uploading the answer sheets. No answer scripts will be accepted beyond the scheduled close of examination time. The examinations will be held on the Google Classroom platform.

If more than one answer script is found to contain identical answers or contain answers plagiarized from sources in the internet, all such answer scripts will be summarily canceled. The HoDs of all departments must sensitize their students of this possibility well in advance.

The respective Heads from the colleges will send the verified email addresses of their students to the Head, Dept. of Microbiology, University of Calcutta. Once the students receive the invitation for joining the classroom page, they must join immediately.

The Head of the university department will directly conduct the examination, then distribute the files containing the answer sheets to the respective examiners, for evaluation. After the evaluation, Head, Dept. of Microbiology, University of Calcutta will submit the marks to the office of the Controller of Examination.
