

# University of Calcutta

*According to the Nature Index list for 2019 University of Calcutta has ranked 2nd among all the state universities in the whole country, in life science. Over-all, its rank is 14th among all Indian universities and research institutes in terms of research publications in life sciences. This rank is also the highest among the universities in the state of West Bengal. Each year, the Nature Index publishes tables based on counts of high-quality research outputs in the previous calendar year. Among universities in the state, Visva Bharati ranked next best at 29 followed by Jadavpur University at 49. 'Nature' makes this list based on publications in 82 top international journals that it selects. We are proud of our faculty's contributions towards this achievement.*
