### QUOTATION NOTICE

**Ref No: DST-PROJECT/Equipments-3/GEOL/SB/2017**

Quotation for the following Items are invited from the authorized parties for remodeling undermentioned items for the DST project entitled "Kinematic transitions at the plate contact deformation during Himalaya-Tibet collision" (Project No.- **EMR/2015/000910**) under Dr. Santanu Bose (PI. Experiences equipment manufacturers for Research and Development are hereby requested to submit their Quotation including the current Trade License, Service Tax, Registration Certificate, PAN No, Copy of Registration Certificate with Statutory Authorities and other credentials **within 19<sup>th</sup> October, 2017** from the publication of this notice in a sealed envelope addressed to the undersigned. The authority reserves the right to accept/reject any quotation without showing any reason thereof. The details of the modification works are given below.

#### Quotation for modification of existing sandbox modeling apparatus

Quotations are invited from research oriented experienced instrument manufacturers, having worked similar to University earth soil technology research instruments of "sandbox modeling apparatus" of adjustable slants and on a Mylar transport system.

Designing, fabricating, with add-on additional end transit on a second angular slant bed, with simulating convergence that could change angular positions for pro-wedge and retro-wedge of the modelling material relative to the exit slit.

Requirement of Technical modifications are listed below:-

- 1) Manufacture and affix - additional end transit on a second angular slant bed. in conjunction with existing bed to run the Miler paper in between 2 beds at any angle as required.
- 2) Accommodate motor base.
- 3) Arrange Caster wheels
- 4) Cleaning and re-painting total set-up.

Yours faithfully

A handwritten signature in blue ink that reads 'Santanu Bose'.
